

Marie-Pierryle Filleul

Docteur Marie-Pierryle FILLEUL received her dental qualification from René Descartes University in Paris (France) in 1975 and completed her training in orthodontics under the supervision of Professor Paul-Hugh DEMOGE in 1983. Following a period in a private practice, she became a lecturer in the Department of Orthodontics in 1988.

Appointed a full-professor and Chair of the Department of Orthodontics of Henri Poincaré University in Nancy (France) in 2001.

Her current research interests include biomechanics and characterizing of orthodontic wires. She has published papers on these wires in orthodontic and metallurgic international journals. Consulting expert for the French Dental Association (A.D.F.) since 1988.

A member of editorial board of the European Journal of Orthodontics since 1999, she is also a council member the Société Française d'Orthopédie dento-faciale in charge of posters sessions since 2000.
